### **DETAILED ACTION**

Claims 1-24 were originally pending for examination.

Claim 13 is currently amended.

Claim 14 is cancelled.

Claims 1-13, 15-24 are pending in the application.

### **Election/Restrictions**

Restriction to one the following inventions is required under U.S.C. 121:

- I. Claims 1-12, 22-24 drawn to an electronic voting system, classified in class 705, subclass 12.
- II. Claims 13, 15-21, drawn to a program storage , classified in class 711, subclass 103.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as subcombinations disclosed as usable together single combination. The subcombinations are distinct from each other if they are shown to be separately usable.

In the instant case, invention I has separate utility such as in a combination not requiring the details of the program storage. See MPEP 5 806.05(d).

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is Proper.

Because these inventions are distinct for the reasons given above and the search required for Group II is not required for Group I, restriction for examination purposes as indicated is proper.

Art Unit: 2131

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.142(b), as being drawn to a non-CFR 1.48(b) one or more of the an inventor of at least one claim currently named inventors is no longer remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
